President of the Senate

Approved

Governor of the State of Washington

CERTIFICATE

I, Bernard Dean, Chief Clerk of the House of Representatives of the State of Washington, do hereby certify that the attached is **SUBSTITUTE HOUSE BILL 1294** as passed by the House of Representatives and the Senate on the dates hereon set forth.

Chief Clerk

FILED

**Secretary of State
State of Washington**

SUBSTITUTE HOUSE BILL 1294

Passed Legislature - 2025 Regular Session

State of Washington

69th Legislature

2025 Regular Session

By House Appropriations (originally sponsored by Representatives Dent, Reeves, Timmons, and Hill)

READ FIRST TIME 02/28/25.

1 AN ACT Relating to extending the pesticide application safety
2 committee; amending RCW 70.104.110; amending 2019 c 327 s 1
3 (uncodified); creating a new section; providing an effective date;
4 providing expiration dates; and declaring an emergency.

5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

6 **Sec. 1.** RCW 70.104.110 and 2019 c 327 s 2 are each amended to
7 read as follows:

8 (1) The pesticide application safety committee is established.
9 Appointments to the committee must be made as soon as possible after
10 the legislature convenes in regular session. The committee is
11 composed of the following members:

12 (a) One member from each of the two largest caucuses of the house
13 of representatives, appointed by the speaker of the house of
14 representatives;

15 (b) One member from each of the two largest caucuses of the
16 senate, appointed by the president of the senate;

17 (c) The director of the department of agriculture, or an
18 assistant director designated by the director;

19 (d) The secretary of the department of health, or an assistant
20 secretary designated by the secretary;

1 (e) The director of the department of labor and industries, or an
2 assistant director designated by the director;

3 (f) The commissioner of public lands, or an assistant
4 commissioner designated by the commissioner;

5 (g) The dean of the college of agricultural, human, and natural
6 resource sciences at the Washington State University, or an assistant
7 dean designated by the dean;

8 (h) The pesticide safety education coordinator at the Washington
9 State University cooperative extension; and

10 (i) The director of the University of Washington Pacific
11 Northwest agricultural safety and health center, or an assistant
12 designated by the director.

13 (2) The committee shall be cochaired by the secretary of the
14 department of health, or the assistant secretary designated by the
15 secretary, and the director of the department of agriculture, or the
16 assistant director designated by the director.

17 (3) Primary responsibility for administrative support for the
18 committee, including developing reports, research, and other
19 organizational support, shall be provided by the department of health
20 and the department of agriculture. The committee must hold its first
21 meeting by September 2019. The committee must meet at least three
22 times each year. The meetings shall be at a time and place specified
23 by the cochairs, or at the call of a majority of the committee. When
24 determining the time and place of meetings, the cochairs must
25 consider costs and conduct committee meetings in Olympia when this
26 choice would reduce costs to the state.

27 (4)(a) An advisory work group is created to collect information
28 and make recommendations to the full committee on topics requiring
29 unique expertise and perspectives on issues within the jurisdiction
30 of the committee.

31 (b) The advisory work group shall consist of a representative
32 from the department of agriculture, two representatives of employee
33 organizations that represent farmworkers, two farmworkers with
34 expertise on pesticide application, a representative of community and
35 migrant health centers, a toxicologist, a representative of growers
36 who use air blast sprayers, a representative of growers who use
37 aerial pesticide application, a representative of growers who use
38 fumigation to apply pesticides, and a representative of aerial
39 applicators. The secretary of health, in consultation with the
40 director of the department of agriculture and the full committee,

1 must appoint members of the advisory work group, and the department
2 of health must staff the advisory work group. The letter of
3 appointment to the advisory work group members must be signed by both
4 cochairs.

5 (c) The advisory work group must hold meetings only upon the
6 committee's request. (~~To reduce costs, the advisory work group must~~
7 ~~conduct meetings using teleconferencing or other methods, but may~~
8 ~~hold one in-person meeting per fiscal year.~~)

9 (d) Members of the advisory work group shall be reimbursed for
10 mileage expenses in accordance with RCW 43.03.060.

11 (e) The advisory work group must provide a report on their
12 activities and recommendations to the full committee by November 9th
13 of each year.

14 (5) The first priority of the committee is to explore how the
15 departments of agriculture, labor and industries, and health, and the
16 Washington poison center collect and track data. The committee must
17 also consider the feasibility and requirements of developing a shared
18 database, including how the department of health could use existing
19 tools, such as the tracking network, to better display multiagency
20 data regarding pesticides. The committee may also evaluate and
21 recommend policy options that would take action to:

22 (a) Improve pesticide application safety with agricultural
23 applications;

24 (b) Lead an effort to establish baseline data for the type and
25 quantity of pesticide applications used in Washington to be able to
26 compare the number of exposures with overall number of applications;

27 (c) Research ways to improve pesticide application communication
28 among different members of the agricultural community, including
29 educating the public in English and Spanish about acute and chronic
30 health information about pesticides;

31 (d) Compile industry's best practices for use to improve
32 pesticide application safety to limit pesticide exposure;

33 (e) Continue to investigate reasons why members of the
34 agricultural workforce do not or may not report pesticide exposure;

35 (f) Explore new avenues for reporting with investigation without
36 fear of retaliation;

37 (g) Work with stakeholders to consider trainings for how and when
38 to report;

39 (h) Explore incentives for using new technology by funding a
40 partial buy-out program for old spray technology;

(i) Consider developing an effective community health education plan;

(j) Consult with community partners to enhance educational initiatives that work with the agricultural workforce, their families, and surrounding communities to reduce the risk of pesticide exposure;

(k) Enhance efforts to work with pesticide manufacturers and the environmental protection agency to improve access to non-English pesticide labeling in the United States;

(l) Work with research partners to develop, or promote the use of translation apps for pesticide label safety information, or both;

(m) Evaluate prevention techniques to minimize exposure events;

(n) Develop more Spanish language and other language educational materials for distribution, including through social media and app-based learning for agricultural workforce communities;

(o) Explore development of an agricultural workforce education safety program to improve the understanding about leaving an area being sprayed; and

(p) Work with the industry and the agricultural workforce to improve protocols and best practices for use of personal safety equipment for applicators and reflective gear for the general workforce.

(6) The committee must provide a report to the appropriate committees of the legislature by May 1, 2020, and each year thereafter. An initial report on the progress of the committee must be provided in January 2020. The report may include recommendations the committee determines necessary, and must document the activities of the committee and report on the subjects listed in subsection (5) of this section. The department of health and the department of agriculture must provide staff support to the committee for the purpose of authoring the report and transmitting it to the legislature. Any member of the committee may provide a minority report as an appendix to the report submitted to the legislature under this section.

(7) This section expires July 1, ((2025)) 2035.

Sec. 2. 2019 c 327 s 1 (uncodified) is amended to read as follows:

(1) In 2018, the legislature passed Engrossed Second Substitute Senate Bill No. 6529. The bill recognized that farmers, farmworkers,

1 and the broader community share an interest in minimizing human
2 exposure to pesticides. It also recognized that gains have been made
3 in reducing human exposure to pesticides and that collaboration
4 between state agencies and the farming community could further reduce
5 agricultural workers exposure to pesticide drift.

6 (2) The legislation established a pesticide application safety
7 work group that would make recommendations for improving pesticide
8 application safety. Work group members included legislators from both
9 chambers and caucuses, as well as representation from state agencies
10 and the commission on Hispanic affairs. The work group sought public
11 participation to learn more about pesticide application safety. Many
12 stakeholders including but not limited to local farm hosts, the
13 agricultural industry, and members of the agricultural workforce
14 contributed valuable assistance and input.

15 (3) The work group reached two noteworthy recommendations
16 regarding what can be done now to improve pesticide application
17 safety. The recommendations are to:

18 (a) Expand training because the department of agriculture lacks
19 sufficient resources to meet the training demand from pesticide
20 applicators and handlers; and

21 (b) Establish a new pesticide application safety panel to provide
22 an opportunity to evaluate and recommend policy options, and
23 investigate exposure cases.

24 (4) The work group concluded that legislation is warranted to
25 expand funding for a training program and set up a new pesticide
26 application safety panel with clear objectives.

27 (5) This section expires July 1, ((2025)) 2035.

28 NEW SECTION. **Sec. 3.** If specific funding for the purposes of
29 this act, referencing this act by bill or chapter number, is not
30 provided by June 30, 2025, in the omnibus appropriations act, this
31 act is null and void.

32 NEW SECTION. **Sec. 4.** This act is necessary for the immediate
33 preservation of the public peace, health, or safety, or support of
34 the state government and its existing public institutions, and takes
35 effect July 1, 2025.

--- END ---
